

CROSSROADS- Eric Clapton

E7                      A7                      E7

I went down to the crossroads, fell down on my knees

A7                                              E7

I went down to the crossroads, fell down on my knees

B7                      A7                      E7

Ask the lord up above for mercy, take me if you please.

E7                      A7                      E7

I went down to the crossroads, tried to flag a ride

A7                                              E7

I went down to the crossroads, tried to flag a ride

B7                      A7                      E7

Nobody seemed to know me, everybody passed me by.

E7                      A7                      E7

Well I'm going down to Rosedale, take my rider by my side

A7                                              E7

Well I'm going down to Rosedale, take my rider by my side

B7                      A7                      E7

You can still buy a house baby, on the riverside.

E7                      A7                      E7

You can run, you can run, tell my friends I'll be around

A7                                              E7

Run, you can run, tell my friends I'll be around

B7                      A7                      E7

Well I'm standing at the crossroads, believe I'm sinking down.
