

DOUBLE VISION Foreigner

Intro

A vamp A5 C# B G A5

Feeling down and dirty Feeling kind of mean

I've been to one or the other extreme

I'm tire of looking at my computer's screen

It's time I had a good time ain't got time to wait

I want to stick around til I can't see straight

CHORUS:

D Dm A D Dm A

Fill my eyes with that Double vision No disguise for that double vision

Ooh when it gets through to me it's always new to me

My Double vision gets the best of me

2.) My double vision always seems to get the best of me

Never do more then I really need My mind is racing but my body is in the lead

Tonight's the night I'm going push it to the limit

I lived all of my years in a single minute

go to chorus

Ending do this to fade:

The best of me yeah

ooooh doubl vision I need

ooh double vision double vision

ooh It gets me out of my head out of my head

I get my double vision Oh

See double double vision

Ohh my double vision

double vision yeah
