

**Even The Losers, performed by Tom Petty**

(Intro) **A**

**A D A G A**

Well it was nearly summer, sat on your roof

**D A G**

Yeah we smoked cigarettes and we stared at the moon

**D A G D**

And I showed you stars you never could see

**D C**

Babe, it couldn't have been that easy to forget about me

**D A G A**

Baby time meant nothin? anything seemed real

**D A G**

Yeah you could kiss like fire and you made me feel

**D A G D**

Like every word you said was meant to be

**D A C**

Babe, it couldn't have been that easy to forget about me

(Chorus)

**D A G**

Baby even the losers

**D A G**

Get lucky sometimes

**D A G**

Even the losers

**G**

Keep a little bit of pride

**A**

They get lucky sometimes

(Solo, repeat chords as in verses 1&2)

(Bridge)

**A Asus4**

Two cars parked on the overpass

**A Asus4**

Rocks hit the water like broken glass

**A Asus4**

Should have known right then it was too good to last

**A Asus4 G G**

It? such a drag when you live in the past

(Repeat Chorus to fade)
