

<u>I Want to Believe, performed by Sass Jordan</u>	
key: C	
I want to believe....	I want to believe it's all that I need I want to believe
the riff: -----BTW capo the 2nd fret.....-----32-----	
-----30-----	Who will be king - and who will be beggar?
then play a C then a G repeat riff as you like it...	when will I have this mystery solved
The song itself is	who said a ring - could mean love forever
	Nothing's for sure - except growing old
G D	Will I always be here spinning my wheels
When will I die - when will I marry	or does misfortune have a hand in the deal
Em D	is that how my fate is sealed?
Why do I cry for nothin' sometimes	
G D	I want to believe love has chance to survive
Why do I feel like I'm in a hurry	the dream to be as one
Em D	I want to believe in a nurturing love
Feels like a race and I'm out of time	and not just a sacrifice
C G D	
Like a lover turning into a friend	Where is my home - and where am I going?
C G D	When will I know and how will I know?
Somewhere a heart is gettin broken again	I had a lover who truned into a friend
C G D D	I had a heart but it got broken again
How does the whole thing end?	And I don't know if it ever will mend
C G	Is this how the whole thing ends?
I want to believe in something for real	
C Em	Any way, good luck on this song...it's a good one, and if anyone else
I want to believe in something I feel	helps you finish it..mail me back what you got.
