

## Moby Dick - Led Zeppelin

Someone is forgetting something! The low E is tuned down to a **D** for Moby Dick.

Here is the song:

This song is really easy to play, even if you don't know the solos. :-) Enjoy! Make sure you listen to the song or you won't know the changes. You NEED to tune the 6th string to **D** to play this.

{Riff 1}

```
e:-----|
B:-----|
G:o-----o|
D:o-----o|
A:---5--5--3-----|
E:-0-----5--3--5--3--5--3--|
```

{Riff 2}

```
e:-----|
B:-----|
G:o-----o|
D:o--5--5--3--0-----o|
A:-----1--3--1--3--1---|
E:-5-----|
```

{Riff 3}

```
e:-----|
B:-----|
G:-----7--5-----|
D:--7--7--5---7--7--5--7--5-5-5-5-----7--5-----|
A:-----7-----7-----8--5-----8-----|
E:-7-----|
```

Okay, now for the song, play {Riff 1} four times, then {Riff 2} two times, then back to {Riff 1} two times, then break into {Riff 3} once, then repeat the entire cycle. This sequence repeats a few times, then after the end of {Riff 3} play this:

```
e:-----|
B:-----|
G:-----|
D:-----|
A:---5-----|
E:---0-----|
```

So when the song is ending, instead of looping back to {Riff 1} after {Riff 3}, you play this as the last note. There is a long pause in the middle where Bonham goes off, which is good for drummers but not for us. :-) This song took me about 10 minutes to get down right, and I've only been playing for 7 months, so this one should be no sweat. Of course, if you can do Page's mini solos in between the pauses later in the song, good luck.
