And we're leaving broken hearts behind	Eternally wild with the power

C G	
Mystify me	All veils and misty
	Streets of blue
	Almond looks
	That chill divine
I need perfection	
Some twisted selection	Some silken moment
That tangles me	Goes on forever
To keep me alive	And we're leaving
	Yeah we're leaving broken hearts behind
In all that exists	
None have your beauty	Chorus
I see your face	Bridge
I will survive	Chorus
