

Separate Ways - Journey

This song is pretty hard it took me a good while to get most of it down...

I didn't even bother putting the solo cause I don't know any of it, oh well we can make do with this.

I'm pretty sure most of this is correct

b - bend

r - release bend

/ - slide up

\ - slide down

x - muted note

* - natural harmonic

Repeat this part several times while the keyboard does the rest, then go to...

ok, after doing the chorus a second time, it goes to the friggin hard solo and then does this...

 -17-13---11b11-----

 -----2--2--2--2--2-----

this is almost the same as the normal solo except without the fast part, but I know this.
 on repeating the outro solo the second time, bend the 12's with a "*" above them fully.
